## PAY RAISE 2016!

You will be making 1.3% more on your paycheck after the first of the year...most likely. According to the September 14<sup>th</sup> issue of the Air Force Times, President Obama ordered the pay increase in August and it is unlikely to increase or decrease for the upcoming year.

Under normal circumstances, the military pay raise is supposed to mirror private sector salary growth, which was approximately 2.3%. The law, however, allows the president to lower that amount in times of emergency or financial hardship. According to the article, that is what the president did and the 1.3% number is highly likely to be the increase for the coming year.

A 1.3% increase amounts to a per drill increase of \$8.36 for an E-7 with 16 years of service and an increase of \$4.79 for an E-5 with 6 years service. A full scale of new anticipated pay rates can be found at
